

College Handbook

1. Introduction

This handbook provides general academic, administrative, and student conduct information for all undergraduate students of the college.

2. Attendance Policy

Students are expected to maintain at least 75% attendance in each subject. Students falling below the minimum attendance may be required to submit a written explanation and can be detained from end-semester examinations if the shortage is not condoned.

3. Code of Conduct

Students must maintain discipline on campus, wear ID cards, and follow laboratory and library rules. Any act of misconduct, ragging, or damage to property may lead to disciplinary action.

4. Examination Guidelines

Students must carry their hall ticket and ID card to every examination. Use of unfair means is strictly prohibited and can result in cancellation of the examination.

5. Library and Lab Rules

Library books must be returned on time. Laboratory equipment should be used carefully and only under faculty or lab instructor supervision.
